A white quotation mark icon consisting of two curved lines, one opening to the left and one opening to the right, positioned at the top left of a circular frame.

I must emphasize that
greater attention must
be paid to technical and
vocational education.

Quaid e Azam Muhammad Ali Jinnah,
at the first National Education Conference,
Karachi, November 27th, 1947

A white quotation mark icon consisting of two curved lines, one opening to the left and one opening to the right, positioned at the bottom right of a circular frame.

MESSAGE FROM THE CHAIRMAN

In today's fast-evolving world, the importance of skill development, reskilling, and upskilling cannot be emphasized enough. Global trends indicate a shift towards a knowledge-based economy, where individuals armed with practical expertise are thriving amidst the changing tides of technology and innovation. We must recognize that these are not just passing trends but the very foundations upon which a prosperous future for our nation will be built.

Technological advancements have opened up new horizons for learning opportunities, transcending geographical boundaries and making education accessible to all. At The Hunar Foundation, we are keenly aware of how technology can play a transformative role in empowering our students with the knowledge and skills they need to succeed in the modern world.

A country like Pakistan, blessed with a vibrant and young population, stands to gain immensely from a skillful youth. By investing in their potential, we are laying the groundwork for a more competitive and resilient workforce, capable of driving economic growth and fostering sustainable development. Our skilled individuals will become the catalysts of change, breaking free from the shackles of poverty and carving a path towards progress for themselves and their communities.

With unwavering dedication and your unwavering support, The Hunar Foundation has been and will continue to be, at the forefront of skilling Pakistan. We remain steadfast in our commitment to alleviate poverty and contribute to the economic development of our beloved nation. Together, we can shape a future where every individual has the opportunity to unleash their true potential and embrace a life filled with dignity and prosperity.

As we move forward, let us walk hand in hand, empowering the dreams of our youth and weaving a tapestry of hope and opportunity for generations to come. Together, we will build a stronger and more inclusive Pakistan.

With heartfelt gratitude and determination;

Aslam Khaliq

THE HUNAR FOUNDATION

The Hunar Foundation (THF) is a Not-For-Profit organization, established in 2008 by a group of likeminded Pakistanis, to empower and enable the marginalized youth of Pakistan with vocational and technical skills and act as a catalyst for empowering the bulging youth population, engage them in productive work, thus consequently alleviating poverty and making them contributing members of the society.

The THF International Chapters, THF USA, THF Canada and THF UK are tax-exempt registered charities in the respective countries.

VISION

A SKILLED PAKISTAN

OUR GOAL
TO TRAIN & CERTIFY
100,000+

YOUNG MEN & WOMEN ANNUALLY BY 2025-26
& TRANSFORM THEM INTO BREAD-EARNERS
AND AGENTS OF CHANGE

MISSION

- To initiate a movement to skill the literate and semi-literate.
- Creating a new cadre of skilled Pakistanis with internationally recognized technical capabilities, thereby opening up a new world of opportunities.
- To be a self-sustainable model through:
 1. Providing marketable skills which are internationally accredited, which will help to provide the image of the trades in society.
 2. Providing customer oriented and industry specific skills.

STRATEGIC OBJECTIVES

- To help alleviate poverty by creating bread-earners.
- To provide school leavers and other young adults who have limited or no access to higher education with opportunities to advance in professional careers/business.
- To impart technical training “with a difference” in quality of skills as well as imparting ethical, social, and moral values.
- To address the issue of skills shortages being experienced by industries worldwide.

The strategic aim for THF is to align its vision with its goal, which is to train, certify & empower more than 100,000 young men & women, annually by 2025-26, with advanced vocational and technical skills. This will not only transform them into bread-earners but will also enable them to gain employment locally & globally.

A large, stylized green double quote icon at the top left of the page.

The challenge to achieve these goals is far too complex, the gap too wide, and the need too urgent to do it alone. Hence, we require 'you' and other organizations to join hands by participating in these endeavors and help us in achieving these goals and beyond.

A large, stylized green double quote icon at the bottom right of the page.

To be employed is to be
at risk, to be employable
is to be secure.

Peter Hawkins

EMPLOYMENT STRATEGY

The Hunar Foundation has an explicit commitment to achieve its objective of providing adequate opportunities and better employment to young people, especially those coming from marginalized population.

Our goal for employment is to act as a catalyst and provide support for employment, and productive work for 100,000 young people by 2025-26.

THE HUNAR FOUNDATION'S UNIQUE APPROACH TO REACHING THIS GOAL IS:

	to support the graduating students in securing employment opportunities with various industries or facilitate them in exploring self-employment options
	to develop innovative solutions to youth employment through practical research and active engagement with public and private stakeholders to enable solutions at scale
	to provide an evidence-based advocacy platform to increase access to productive work for young people
	to foster partnerships and regional coordination to increase the local impact
	to coordinate investments in skills development for youth taking into account the needs of the private sector
	to examine market demand and trends, to address the skills gap and income disparities
	to support and strengthen entrepreneurship and self-employment interventions for young men and women

Partnerships

INDUS HOSPITAL

Indus Hospital & Health Network (IHHN) provides quality healthcare training and provides job opportunities to those graduates who meet their requirements. The Hunar Foundation has entered into the partnership with IHHN in various paramedics courses such as the following:

Program	Affiliation	Duration	Specialty Offered	Eligibility Criteria
Nursing Assistant		6 Months		SSC / Matric / Biology Science with 50% passing Marks
Technician Certificate	Sindh Medical Faculty	1-Year	<ul style="list-style-type: none"> • Operation Theatre Technician • Anaesthesia Technician • Pharmacy Dispenser • Paeds' Oncology • X-Ray Technician 	SSC / Matric - Biology Science with 50% passing Marks
Diploma Certificate	Sindh Medical Faculty	2-Years	<ul style="list-style-type: none"> • Diploma in Cardiology Technician • Diploma in ICU & Anaesthesia Technology • Diploma in Operation Theatre • Diploma in Radiology & Imaging Technology 	HSC - Pre-Medical with 50% Passing Marks
Bachelor's Degree	Jinnah Sindh Medical University	4-Years	<ul style="list-style-type: none"> • Radiology & Imaging Sciences • Clinical Laboratory Sciences • Operation Theatre Sciences • Respiratory Therapy & Critical Care Sciences 	HSC/FSC - Pre-Medical with 50% Passing Marks

Upon successful completion, the qualified graduates are awarded jointly-issued certificates by The Indus Hospital and The Hunar Foundation.

SHANA BASHANA

An Integrated Development Partnership
between Build4Skills & Siemens in Pakistan

Vocational education and training (TVET) 'Made in Germany' has become a globally recognized brand. Trainees learn in a real-life setting and the practical training prepares them for the challenges of the world of work. Global Project Education (Build4Skills) and Siemens Pakistan joint initiative "Shana Bashana" (Side by Side) aim to promote girls' participation in TVET in the infrastructure sector in Pakistan. The Shana Bashana program will be implemented and funded by GIZ.

Thus, The Hunar Foundation will provide 6-month demand-driven and market-aligned vocational training courses to young women of Pakistan. The courses are based on the Competency-Based Training and Assessment (CBT&A) model and are as per the National Vocational Qualification Framework (NVQF). High training quality is delivered and maintained through a highly experienced and nationally certified team of technical trainers coupled with state-of-the-art equipment. Also, a dual training approach, with 6-months of Institute Based Training (IBT) at The Hunar Foundation facility, followed by 6-weeks of Workplace Based Training (WBT) at partnering enterprise/s with facilitation in placement. Once trained, the young female trainees will be prepared and equipped with the right skills required by the partnering enterprises, to do a 6-week work-place based training, hence starting their journey in a specific occupation from the infrastructure and construction sector.

شانه باشانه

supported by
giz Global Project Education

SIEMENS
Legality for Life.

Kharan Technical Training Centre (Franchise)

The Kharan Technical Training Center which is owned by Balochistan TEVTA has been taken over by THF and Taaleem Foundation through public-private partnership as a joint venture to deliver standardized technical and vocational training to the youth of Balochistan, especially to the youth of district Kharan.

A total of 22 different courses will be offered to the students in this institute, including mining, construction & agri-based trades. More than 4,300 students are expected to graduate from this institute with employable skills over the period of next 5-years.

Accreditations

THF campuses are accredited with the National Vocational and Technical Training Commission (NAVTTTC), under the Ministry of Federal Education and Professional Training, and it is also the apex body mandated to promote, facilitate, regulate, strategize, revamp, approve curricula, train, and provide policy direction for country's entire TVET and development system.

Affiliations

THF campuses are affiliated with the Sindh Board of Technical Education (SBTE) and Punjab Board of Technical Education (PBTE) in Punjab. These Board of Technical Educations (BTEs) are responsible for organizing, regulating, developing and controlling technical, vocational, industrial and commercial education in their respective province. Also, THF campuses in Sindh are affiliated with the Trade Testing Board (TTB) Sindh which is delegated with the function of registering and licensing all establishments, organizations or institutions that offer Vocational Training, conduct trade tests and certify skilled persons and trainers who may have received vocational training through any source or acquired the skill through experience or informal sector. THF is also affiliated with the National University of Technology (NUTECH), a public sector federal chartered University, administered by the Ministry of Science & Technology.

Registrations

THF campuses are registered with the Sindh Technical Education & Vocational Training Authority (STEVT A) and with Punjab Skills Development (PSDA) in the provinces of Sindh and Punjab respectively. These registering authorities have been entrusted with the administrative control of all TEVT Institutions in their provinces.

Success Stories

THE JOURNEY

FROM THF TO USA!

Fakhar Iqbal

Delhi Mercantile Society Technical Institute Advanced Mechanical Manufacturing (CNC)

From a job in a call centre to a successful engineering career, my success journey started at The Hunar Foundation with the Advanced Mechanical Manufacturing course. The course surpassed my expectations as The Hunar Foundation not only provided me with academic education but also essential life skills and career guidance. Due to the constant support from Hunar, two months later I got hired at Brothers Industries (ORO) for a one-year OJT, where I thrived as an Engineer in the Injection Molding Department. After a year and a half, I pursued higher education in the United States and secured admission to a University in California. Today, I am pleased to say that I am making my family, friends, and The Hunar Foundation proud.

FROM HOPE TO ACHIEVEMENT

Laila-Tul-Noor

Saeeda Naseem Technical Institute
Digital Marketing & SEO

Laila-Tul-Noor embarked on her journey to success through The Hunar Foundation's Digital Marketing course at the Saeeda Naseem Technical Institute. After completing her studies, she gained immense confidence with the 6-month Digital Marketing course, along with valuable web development skills. Today, as a Digital Marketing Executioner at Agilities, Laila earns a handsome salary, good enough to support her family.

RESILIENCE REWARDED

Muhammad Nabeel Baig

Delhi Mercantile Society Technical Institute
Electrical Technology

Muhammad Nabeel Baig overcame challenging financial circumstances by pursuing his passion for the electrical repairs program through The Hunar Foundation. Impressed by the well-equipped labs, facilities, and supportive instructors, Nabeel acquired comprehensive vocational training that included theory and valuable soft skills like English proficiency, followed by On-Job Training alongside experienced engineers. After completing his course, Nabeel then established his own workshop, thus fulfilling his childhood dream. His improved financial situation enabled him to support his family and they also purchased an apartment of their own. Currently, Nabeel has gained employment as an Electrician in Riyadh, Saudi Arabia.

HOW YOU CAN HELP US

We actively look for assistance and sponsorship from various organizations and individuals.

A large scale technical program, with a growing network of institutes, requires support in various capacities. We request you to come forward and support the youth and let's move together towards 'A Skilled Pakistan'.

All forms of support and donations are welcome, such as gifted land, property, contribution to building an institute, or a donation for operational expenses. By doing this, you are becoming a helping hand in empowering and enabling the disadvantaged youth. When you support a young man or a woman belonging to the lower strata of our society, you are helping sow a seed for lifetime employment skills that will lead to a healthier life not only for the person you are investing in but also for his/her family.

Consequently, it can help them gradually get out of poverty and will keep them away from desperate measures that young men and women fall into in order to support their families.

The Hunar Foundation is a Shariah Compliant Organization and is tax-exempt under Section 2 (36) C of the Income Tax Ordinance. We are PCP Certified and our Auditors are BDO Pakistan. The cost of all advertising material is borne by the Trustees of The Hunar Foundation.

HOW YOU CAN HELP US

Help us alleviate poverty through skills training
